PROFESSIONAL SUMMARY

Machine Learning Engineer and **Microsoft Certified Fabric Data Engineer Associate** with hands-on experience taking ML models from development to **production deployment and monitoring**. Builds automated **ETL pipelines** with data-quality checks, **version-controlled workflows** using Git integration and **CI/CD deployment pipelines**, and live scoring services backed by Python, SQL and cloud data platforms (Microsoft Fabric, BigQuery). Experienced **mentoring developers** and explaining model results to technical and non-technical stakeholders. Seeking an **ML Engineer (MLOps)** role to build reliable, auditable, production-grade AI/ML solutions.

WORK EXPERIENCE

AI/ML Developer & Data Analyst | **Effling Kids Pvt. Ltd.** *(Freelance)* — *Aug 2025 – Present*

- Designed and deployed **scalable machine learning solutions** that automated core educational processes, integrating backend services with **ML pipelines** to improve performance and reliability in production.
- Built an **ETL pipeline** from **Google Analytics 4 (GA4)** via **Google BigQuery** into a **Power BI KPI dashboard** tracking engagement, retention and user growth; presented insights to management for decision-making.

Project Mentor | **GirlScript Summer of Code** *(Internship)* — *May 2024 – Nov 2024*

- **Mentored and coached** a cohort of Python developers in building **agentic AI systems** and workflow automation.
- Co-led two open-source projects, **SPRING** and **BEAUTIFY**, with a team of 3 mentors from ideation through delivery on Git/GitHub.

PROJECTS

Banking Fraud Detection System `MACHINE LEARNING · DEPLOYMENT` — Live Demo ↗ GitHub ↗

Tech Stack: Python, Scikit-learn, pandas, SQL, Power BI (DAX), JavaScript

- Built a two-stage model (**Isolation Forest anomaly detection + Gradient Boosting**) on 216K transactions, catching **82% of fraud value** at a **0.4% false-positive rate**.
- Deployed it as a live service with **real-time scoring** and **explainable alerts**, plus SQL and Power BI models for reporting.

Supply Chain Risk Analytics `DATA ENGINEERING · FORECASTING` — Live Demo ↗ GitHub ↗

Tech Stack: Python, pandas, SQL (star schema), Power BI (DAX, Power Query), D3.js

- Built an **automated daily ETL pipeline** with **data-quality checks** into a **SQL star schema** to monitor inventory, supplier OTIF, delivery delays and stockout risk.
- Developed **Holt-Winters demand forecasting (86% accuracy)** and a live interactive dashboard with Power BI DAX models.

ExpenseIQ – Full-Stack Expense Tracker `SOFTWARE ENGINEERING` — Live Demo ↗ GitHub ↗

Tech Stack: React, Node.js, Express.js, MongoDB, REST APIs, JWT

- Built and deployed a MERN-stack app with **secure JWT authentication** and **RESTful APIs**, plus spending dashboards, budget alerts and CSV export.

TECHNICAL SKILLS

Languages	Python, SQL, Java (basics), JavaScript, DAX
ML & Libraries	Scikit-learn, TensorFlow, Pandas, NumPy, Matplotlib, Classification, Anomaly Detection, Forecasting, Model Evaluation
MLOps & CI/CD	Model Deployment, Performance Monitoring, Git Integration, Fabric Deployment Pipelines, CI/CD, Git, GitHub, REST APIs
Data Engineering	ETL/ELT Pipelines, Data-Quality Checks, Data Modeling (Star Schema), Microsoft Fabric (Lakehouse, Warehouse, OneLake)
Cloud & Databases	Microsoft Fabric, Google BigQuery, SQL Server, MySQL, MongoDB, Firebase
Analytics & Web	Power BI, Power Query, GA4, Excel, Node.js, Express.js, React, Power Platform
Professional	Mentoring & Coaching, Cross-Functional Collaboration, Stakeholder Communication, Problem-Solving

CERTIFICATIONS & ACHIEVEMENTS

Microsoft Certified: Fabric Data Engineer Associate (DP-700) — Verify ↗
Microsoft • Earned Sep 2026 • Credential ID 46DE4887910E1E3F

- Ranked in the **top 2%** in "Introduction to Machine Learning" and **top 5%** in "Programming in Modern Python" (NIT).
- Solved **150+ Data Structures and Algorithms (DSA)** problems on LeetCode, GeeksforGeeks and CodeChef.
- Awarded **Gold Medal** (branch level) and **Bronze Medal** (college level) for academic excellence.

Other Certifications: Python • Data Analytics • Git & GitHub • Data Science • Microsoft Power BI • SQL • Microsoft Excel

EDUCATION

KIPM College of Engineering and Technology, Gorakhpur — *2022 – 2026*
Bachelor of Technology (B.Tech) in Computer Science and Engineering (AI & ML) — **CGPA: 8.5/10**
